

Fine winegrapes have been grown in our family vineyard since 1884.

In keeping with this longstanding farming heritage, our handmade wooden boxes use a traditional nail closure.

To open, please insert a flat-blade screwdriver (or wide pry tool) beneath the box lid near one of the nails. Tap the tool handle with a hammer until the blade wedges under the lid; using the tool as leverage, pry the lid and nail upward.

Repeat near each nail until the lid and nails have broken free of the box.

Being an all-natural wood box, the wood may split when opened.

Please enjoy this rustic ritual of unpacking your VHR wine!
